MJTESTPREP SAT SUMMER CAMP

At **MJ Test Prep**, we're constantly searching for new and better ways to help students achieve their goals of high test scores and other forms academic success. Between school, sports, extracurricular activities and social life, the largest challenge most students face when prepping for the SAT is finding sufficient blocks of uninterrupted time to devote to test preparation. So we've come up with a great way to help students meet this challenge.

This summer, the MJ Test Prep SAT Camp will provide students entering 9th, 10th, and 11th grade with the structured time and intensive training they need to get ahead of the game. The curriculum for the camp was carefully designed by Dr. Matt Joseph to hit on all the crucial areas of the test. We've also created an environment and activities that will make both the learning and the break time enjoyable to our students. For a week or more, students will receive highly focused instruction in the following areas:

- Methods of working effectively within the time restrictions of the SAT.
- Focused repetition that will heighten familiarity with frequently recurring math problem types.
- Proven strategies for successful essay writing.
- Ways to build a robust vocabulary that will boost verbal scores.
- Guided practice of critical reading.

Our talented and rigorously trained tutors (also previous students of Dr. Matt Joseph currently attending elite colleges) will be working with students in small groups of 3-4 students to provide a variety of learning experiences with which we've had great success. All the research shows that cognitive development is enhanced by the learner's enjoyment and enthusiasm, so the MJ Test Prep SAT Camp will provide a nice spot for some important work in a summertime atmosphere. Our group activities, such as Vocabulary Wars and Math Tag Team competitions, will allow the students to have fun while gaining the knowledge and developing the pivotal skills to improve their test performance.

Lunchtime and breaks can be enjoyed in the hip, collegiate atmosphere of our **Study Cup Café**. Here students will get a taste of the college life – cappuccinos, lattes, slushies, and frappuccinos, plus wireless and the vibrancy of like-minded students –all under the eye of our hip, young staff.

We look forward to seeing you soon!
