

Guarantee Agreement between MJtestprep and a Student

MJ Test Prep is committed to helping students achieve meaningful score improvement through consistent instruction, practice, and completion of assigned work.

For eligible students, MJ Test Prep guarantees a **160-point increase on the SAT** or a **4-point increase on the ACT**, subject to the terms and conditions below.

For students whose official starting SAT score is **1350 or higher**, the guarantee is that the student will achieve a superscore of at least **1500 (SAT) or 34 (ACT)**.

Eligibility Requirements

To qualify for the Score Guarantee, the student must meet **all** of the following requirements:

1. Provide an Official Starting Score

Before beginning the program, the student must provide MJ Test Prep with an official College Board PSAT/SAT score report or official ACT score report.

This score will establish the student's baseline for purposes of the Score Guarantee. If there is no official College Board or ACT score report from before tutoring begins, the student is not eligible for the score guarantee.

2. Complete the Required Program

The student must complete at least **16 tutoring sessions** with the same MJ Test Prep instructor or complete the designated MJ Test Prep Comprehensive Course.

The required 16 sessions must be completed within **six months of the student's first tutoring session**.

3. Complete All Assigned Homework

The student must complete all homework assigned between sessions, including practice tests, worksheets, corrections on worksheets to achieve 85% or above, and other assignments designated by the tutor.

If an assignment is unclear, the student is responsible for contacting the tutor or MJ Test Prep for clarification.

4. Sign the Score Guarantee Agreement

The Score Guarantee Agreement must be signed and returned to MJ Test Prep **before the student's second tutoring session**.

If the student is under 18, both the student and a parent or legal guardian must sign the agreement.

How SAT Score Improvement Is Calculated

For purposes of the SAT Score Guarantee, improvement will be determined using the student's **highest SAT/ACT superscore**, combining the student's highest subsection scores from all official administrations taken after beginning the MJ Test Prep program.

The student's qualifying superscore will be compared with the official baseline score provided to MJ Test Prep at the beginning of the program.

For students whose official starting SAT/PSAT score is **1350 or higher**, the guaranteed target is an official **SAT superscore of at least 1500**.

For ACT students, those who begin with an official SAT/PSAT score of **1350 or higher** or an official ACT score of **31 or higher** are guaranteed to achieve a **34+ ACT superscore**.

When the Guarantee Is Evaluated

The Score Guarantee will be evaluated using the student's **first official SAT or ACT super score taken after completion of the required 16 sessions**, unless MJ Test Prep and the family agree in writing, before that test date, to use a different test administration.

If the student achieves the applicable guaranteed score, the Score Guarantee has been satisfied and no bonus sessions are due.

If the student does not achieve the applicable guaranteed score and has satisfied **all eligibility requirements**, the student will qualify for four complimentary bonus tutoring sessions subject to the terms below.

Four Bonus Sessions

The four complimentary bonus sessions are provided solely to give an eligible student additional preparation toward achieving the score covered by the MJ Test Prep Score Guarantee.

The four bonus sessions:

- Must be completed **within 60 days of the release of the official score that triggered the Score Guarantee and before the student's next nationally scheduled SAT or ACT administration for which the student is registered, whichever occurs first**.
- May not be postponed, saved, accumulated, or banked for a later SAT or ACT administration.
- Expire immediately if the student achieves the applicable guaranteed score before using some or all of the four bonus sessions.
- Have **no cash value** and may not be refunded, transferred to another student, exchanged for other MJ Test Prep services, or converted into an account credit.

Guarantee Agreement between MJtestprep and a Student

- Are subject to instructor availability and **do not guarantee sessions with a particular instructor.**
- Must be scheduled in accordance with MJ Test Prep's normal scheduling procedures and availability.

Once the student achieves the applicable guaranteed score, **MJ Test Prep's obligations under the Score Guarantee are fully satisfied**, regardless of whether some or all of the four bonus sessions remain unused.

Additional Paid Sessions

Families may choose to purchase additional tutoring sessions before or after the student's 16 required sessions.

Any additional tutoring sessions that are purchased and completed are separate paid services and **will not be refunded, credited, or converted into bonus sessions** if the student subsequently qualifies for the Score Guarantee.

Purchasing additional sessions does not eliminate an otherwise valid Score Guarantee, provided the student has satisfied all other requirements.

Important Conditions

The Score Guarantee applies only when **all requirements of this agreement have been satisfied.**

Failure to provide required official scores, complete assigned homework, complete the required sessions within six months, or return the signed Score Guarantee Agreement by the required deadline will make the student ineligible for the Score Guarantee.

The Score Guarantee provides a maximum of **four complimentary bonus sessions for the qualifying program.** It does not renew after subsequent SAT or ACT administrations and does not create an ongoing entitlement to complimentary tutoring.

Questions regarding eligibility or application of the Score Guarantee should be directed to MJ Test Prep before the student's applicable official test date.
