

Guarantee Agreement between MJtestprep and ACT Student

Typically, a student who works with us has a score increase of between 4 to 10 points. To ensure the belief we have in our system and our commitment to you we are providing a guarantee which is contingent on the following conditions. We ask that you read and sign this contract so that what is expected of us and what is expected of you is clearly understood.

This guarantee agreement is between MJTESTPREP and (student) _____ to achieve an **increase of at least 4 points on the ACT considering your Super Score**. Please submit a **photo of your PSAT/SAT/ACT** scores to be included with this contract. PSAT/SAT/ACT Score: _____

1. Student will provide an official College Board PSAT, SAT or ACT score as a starting point
2. Student agrees to complete assigned homework: 1 test and all worksheets assigned by tutor (2-3 depending on length) per session with 85 % or above (this includes corrections) in order to increase results. Students aiming for 34+ will aim for 95% on the worksheet.
3. Student understands that incomplete or missing assignments or missed appointments may result in stagnant scores
4. Student agrees to attend 16 scheduled meetings, which must be held within 6 months and can be arranged in advance to ensure availability.
5. Student agrees to communicate with their tutor if they need additional assistance or are not clear on the homework assignment
6. Student agrees to 36-hour cancellation/rescheduling policy
7. Student agrees to keep their camera on during online sessions
8. Student agrees not to share any materials given at MJTESTPREP
9. Students are eligible to receive four additional lessons with their tutor if they do not achieve the guaranteed score improvement, as outlined below. Score evaluations are based solely on official PSAT, SAT or ACT results used as the baseline; unofficial practice tests are not considered.

All official test scores will be reviewed, and the highest section scores across test dates will be combined to determine the student's superscore.

- Students starting below a 31 must demonstrate a minimum 4-point increase from their official baseline score.
- Students starting at a 31 or above must achieve a superscore of 34 or higher.

If these conditions are not met, and all program requirements have been fulfilled, the student will receive four additional lessons at no cost prior to their next official test date.

I acknowledge that I understand all the requirements and guidelines included above. I promise to meet these requirements to the best of my ability.
