

## ***Guarantee Agreement between MJtestprep and a Student***

Typically, a student who works with us has a score increase of between 200 and 350 points. To ensure the belief we have in our system and our commitment to you we are providing a guarantee which is contingent on the following conditions. We ask that you read and sign this contract so that what is expected of us and what is expected of you is clearly understood.

This guarantee agreement is between MJTESTPREP and a (student) \_\_\_\_\_ to achieve an increase of at least 160 points on SAT (considering a super score from any official SAT). Student's PSAT/SAT scores \_\_\_\_\_

1. Student will provide an official College Board PSAT or SAT score as a starting point (share PDF of report)
2. Student agrees to complete assigned homework: 1 test and all worksheets assigned by tutor (2-3 depending on length) per session with 85 % or above (this includes corrections) in order to increase results. Students aiming for 1500+ will aim for 95% on the worksheet.
3. Student understands that incomplete or missing assignments or missed student-teacher appointments may result in stagnant scores
4. Student agrees to attend 16 scheduled meetings that could be scheduled in advance to insure the open slots
5. Student agrees to communicate with their tutor if they need additional assistance, or not clear on the homework assignment
6. Student agrees to 36-hour cancellation policy
7. If provided with a Chromebook - it's only for in office use and will be returned to the front desk upon completion of a test or a session.
8. Student agrees to keep their camera on during online sessions
9. Student agrees not to share any materials given at MJTESTPREP
10. Students are eligible to receive four additional lessons with their tutor if they do not achieve the guaranteed score improvement, as outlined below. Score evaluations are based solely on official PSAT or SAT results used as the baseline; unofficial practice tests are not considered.

All official test scores will be reviewed, and the highest section scores across test dates will be combined to determine the student's superscore.

- Students starting below a 1350 must demonstrate a minimum 160-point increase from their official baseline score.
- Students starting at a 1350 or above must achieve a superscore of 1500 or higher.

If these conditions are not met, and all program requirements have been fulfilled, the student will receive four additional lessons at no cost prior to their next official test date.

I acknowledge that I understand all the requirements and guidelines included above. I promise to meet these requirements to the best of my ability.
